

Magic Bubbles — Master Recipe

Mix the day before. Rest overnight. Minimum 12 hours.

INGREDIENTS

Ingredient	1 Gallon	3 Gallons	5 Gallons
Distilled or RO water	1 gal	3 gal	5 gal
Guar gum	1 tsp	1 tbsp	1 tbsp + 2 tsp
Rubbing alcohol (90%+)	2 tbsp	6 tbsp	10 tbsp
Dawn Ultra (original blue)	7.5 tbsp	just under 1.5 cups	just under 2.5 cups
White corn syrup	2 tbsp	6 tbsp	10 tbsp
J-Lube powder	1 tsp	1 tbsp	1 tbsp + 2 tsp
Warm water (for J-Lube slurry)	2 tbsp	4 tbsp	6 tbsp
Baking soda	1 tsp	1 tbsp	1 tbsp + 2 tsp

1 GALLON — Step by Step

1. Fill container with 1 gallon distilled or RO water.
2. Add 1 tsp baking soda. Stir until dissolved.
3. Make guar slurry: mix 1 tsp guar gum into 2 tbsp rubbing alcohol. Pour into water, stir gently. Wait 15 minutes.
4. Add 7.5 tbsp Dawn Ultra. Pour slowly down the side, fold in gently — no suds.
5. Add 2 tbsp white corn syrup. Stir gently.
6. Make J-Lube slurry: mix 1 tsp J-Lube powder into 2 tbsp warm water. Stir through clumps until smooth. Fold in gently.
7. Cover and rest overnight.

3 GALLONS — Step by Step

1. Fill container with 3 gallons distilled or RO water.
2. Add 1 tbsp baking soda. Stir until dissolved.
3. Make guar slurry: mix 1 tbsp guar gum into 6 tbsp rubbing alcohol. Pour into water, stir gently. Wait 15 minutes.
4. Add just under 1.5 cups Dawn Ultra. Pour slowly down the side, fold in gently — no suds.
5. Add 6 tbsp white corn syrup. Stir gently.
6. Make J-Lube slurry: mix 1 tbsp J-Lube powder into 4 tbsp warm water. Stir through clumps until smooth. Fold in gently.
7. Cover and rest overnight.

5 GALLONS — Step by Step

1. Fill container with 5 gallons distilled or RO water.
2. Add 1 tbsp + 2 tsp baking soda. Stir until dissolved.
3. Make guar slurry: mix 1 tbsp + 2 tsp guar gum into 10 tbsp rubbing alcohol. Pour into water, stir gently. Wait 15 minutes.
4. Add just under 2.5 cups Dawn Ultra. Pour slowly down the side, fold in gently — no suds.
5. Add 10 tbsp white corn syrup. Stir gently.
6. Make J-Lube slurry: mix 1 tbsp + 2 tsp J-Lube powder into 6 tbsp warm water. Stir through clumps until smooth. Fold in gently.
7. Cover and rest overnight.

TIPS

- Use 90% or 99% isopropyl alcohol — not 70%.
- Hot or dry days: add an extra 1 tbsp corn syrup per gallon before using.
- Fold ingredients in gently — no whisking — to avoid suds.
- Cotton rope wands work great with this mixture.
- 24 hours rest is ideal. The longer it sits, the better.
- Keep buckets in the shade during events.
- A few small J-Lube clumps in the slurry are fine — they dissolve overnight.
